cisterns  
#9.820.353 \$75.00

Washer Kit for 9.820.353  
#9.820.383 \$12.00

## Further Information

TECE offer an extensive range of flush buttons, with all TECE manual flush buttons suitable for all TECE cisterns.

Popular ranges as follows

**TECEnow** - Chrome, Matte Chrome, Gloss White, Gloss Black and Matte Black

**TECEloop ABS** - Chrome and White

**TECEloop Glass** - 104 colour options

**TECESquare Glass** - 9 colour combinations

**TECESquare Metal 2** - Chrome, Stainless Steel, White and Matte Black

Special finishes available on selected buttons on request.

### Button installation

Minimum wall thickness is 18mm including tiles, for standard installation.

For TECESquare Metal 2, minimum wall thickness is 30mm due to the ultra thin face, the button require more room in the wall to function.

TECE recommend non flexing wall sheeting for all cistern installations.

### TECE cisterns

All TECE cisterns have an adjustable outlet valve, with adjustable flush from 4.5 - 6 -9 liters, half flush is always 3 liters

### Installation and Service

Gro Agencies have TECE cisterns on display and are more than willing to demonstrate installation and service requirements.
